How to Crochet a Sunglasses Case Pattern

Yarn: 4 Medium

Crochet Hook: G / 6 / 4.25MM

Attach yarn to crochet hook using a slip knot.

Row 1: CH 14, turn.

Row 2: Working in the BLO of the 2nd CH from crochet hook, place 1 SC in each st in the row. Turn work slightly at end of row, then place 1 SC in the FLO of each of the previous row's stitches (26 total SC st at end of row - should now be a round pattern). SL st in 1st SC st.

Row 3: CH 2, then place 1 DC in st directly BEHIND current st (make sure to skip the SL st and work in the last SC st of the previous row). *Skip the next st that hasn't been worked and place 1 DC in the following st, then place 1 DC in the skipped st (behind current st).* Repeat * around the row (13 criss-cross st at end of row).

Rows 4 - 16: Repeat Row 3.

For the Strap:

Row 1: CH 25 off last row. Skip 12 st, then SL st into 13th st.

Row 2: Turn work and place 25 SC AROUND the CH stitches. SL st in original st of handle.

Row 3: Turn work and place 1 SC in each of the 25 SC st that form the handle. SL st in original st of handle.

Cut and tie off yarn. Hide tail up inside of sunglasses case. :)
